crease free

DESCRIPTION

The next generation of display media. One side matt and the other side semi gloss. Absolutely crease free. With 180gr/m² lighter than the standard display medias but nevertheless more opaque.

NOTES

When sewing in the running direction, strips or lines can appear parallel to the seam at a distance of up to approx. 2 cm. A thin needle and a longer stitch can have a positive effect.

The numbers above are purely guidelines and may differ depending on your personal printing needs and expectations. Since the printing results depend on numerous factors, we strongly advise to test your output in order to find out if any adjustments are necessary. A legally binding assurance of certain properties of the fabric can not be derived from the information above.
