

be.tex® Salsa Opaque FR | Product no.: 4637-6566

Woven

PRODUCT FEATURES

Material: 100% polyester
Weight: 240 g/m²
Thickness: 220 µm
Stretch: 1-2 %
Transmission factor: 0,001 %
Whitepoint: 93*3*-8 L*a*b

WIDTH (cm)

ca. 160
ca. 260
ca. 320

LENGTH (m)

ca. 70
ca. 60
ca. 60

APPLICATIONS

blockout
display frame systems
roll up display systems
wall covering
backdrops
banners

FEATURES

air tight
ca. 1-2% stretch
blockout
no fraying
good flatness
crease resistant

DESCRIPTION

be.tex® Salsa Opaque FR is the replacement of be.tex® Blackback Display FR. The big difference is the base fabric. be.tex® Blackback Display FR was a knitted fabric with PA-blockout-foam. As this combination has some disadvantages in dye sub printing we changed to a fine woven base fabric. This change causes advantages like even shrinkage of less than 2% at 200°C (belt calander), minimal warping, 320 cm width, etc..

NOTES

Salsa base fabric, developed for dye sub printing, grey PA-blockout-foam on the backside.

The numbers above are purely guidelines and may differ depending on your personal printing needs and expectations. Since the printing results depend on numerous factors, we strongly advise to test your output in order to find out if any adjustments are necessary. A legally binding assurance of certain properties of the fabric can not be derived from the information above.
