ca. 60

APPLICATIONS

blockout
display frame systems
roll up display systems
backdrops
banners

FEATURES

air tight
ca. 1-2% stretch
blockout
no fraying
crease free

DESCRIPTION

Our award winning be.tex® Samba FR as a blockout-version. We achieve the blockout due to a black yarn in the weaving. So there is no coating on the back that could be destroyed. That makes be.tex® Samba Opaque FR very tough. Features like crease free, folded shipment, etc. characterise be.tex® Samba Opaque FR. The media is curl free that makes it the perfect choice for roll-up applications.

NOTES

Samba base fabric with black yarn (blockout), developed for UV, solvent and Latex.

Roll cuts for special widths needs to be hot-cut.

The numbers above are purely guidelines and may differ depending on your personal printing needs and expectations. Since the printing results depend on numerous factors, we strongly advise to test your output in order to find out if any adjustments are necessary. A legally binding assurance of certain properties of the fabric can not be derived from the information above.
